Experience

FREELANCE

01. Jurnal Ilmu Administrasi Public - UNISRI

This is my first project to make UI together with the team using figma, this is a website that contains personal scientific journals from UNISRI university

We worked on this project for one week, and from this project I learned about team work, time management because at that time I was still in college.

EMPLOYEE

01. Programmer at PT. Kuadran Teknologi Indonesia : 2021 -> now

PT. Mitra Kuadran Teknologi is Software House company based on Batam, Offer service about technology software development for especially in Batam - Indonesia, Singapore & Malaysia

The framework I use at work is

1. Vue.js
2. React.js
3. Express.js
4. React Native
5. Vanilla HTML
